décor hits & misses with Tracy Kundell

Join designer Tracy Kundell as she forecasts the décor hits and misses of 2005 so you can stay in vogue! She'll share how-to tips and tricks to pull off the trendiest interiors and help take the guesswork out of trend setting. She'll introduce the latest in paint colours, trendy wallcoverings, and how to incorporate fabric. Tracy says, "It's all about your own personal style. Make a statement, create your own space using your personal taste".

Plus... trivia, giveaways & more fun with TV host Renée Montpellier!

12:30 pm Sunday, October 17

tracy kundell, designer of the Decorating Challenge teams up with... **barry affleck**, master craftsman who shares over 40 years experience in English, French and Italian restoration and decorative painting techniques - and - **judy arnold**, product manager of **Faux Depot** and technique developer of **Strip FX** .

005hw - Textured Wall Treatments (30) All Levels

This comprehensive class will focus on two hot, new, easy must try, products and techniques! You will start with techniques for **Strip FX**, a strippable plaster that enables high-end texturing or everyday plaster effects. It's an easy and inexpensive way to facelift kitchen cabinets, walls and more. You'll work with and take home two sample boards, one prepped and ready for carving, the other to learn application methods. Take home the carving tool, product, primer and paint. Then learn tips and tricks for **Micestone**, a truly remarkable plaster and cross between suede paint and texture top metallic waxes. Learn how to embed a stencil (yours to keep) in a metallic plaster, then burnish it to create a medium lustre suede finish. Reflective gold and silver values may be used alone or combined with another colour to achieve this classy upscale finish. **Premium Fee: \$50**

Half Day Workshop Fri 9:00 to 12:15
